  - **Sharon Gregory, York County Fire Training Center- Many thanks to Sharon Gregory for the tour of the facility. The tour began at the flagpole where there is 9/11 memorial on loan from the Bethesda Fire Department. The memorial is two pieces from one of the twin towers in New York City. Next we went inside to see the classrooms and learn how the firemen are instructed. Then to the outside to the garage where trucks are fixed and some metal fabrication takes place. Also, there are two brick buildings, one for training in a smoke-filled environment and the other can be used for rapelling and other emergencies. The cars in the field are used for the extrication training. Also, there are stands for family and trainees to watch. Then on to the offices where Sharon told us the astounding numbers of inspections they perform in the county. Overall this was a great learning experience and brought new appreciation for our local firefighters.**
